## **Nunavut Literacy Council – Regular Meeting – May 20, 2014**

### **Pond Inlet Library & Archives Society – Update**

During Philippa's unexpected absence for family medical reasons, the PILA Society kept up regular meetings. The following is a brief summary of activities:

- Participation in the *"Inuusiqatiakniq – Living a healthy life"* fair, held Nov. 8 2013. A survey was offered to the public with 8 questions related to the library and archives use within the community. The results will form a basis for a new strategic plan and focus for the Society.
- The annual society fundraiser was held in December 2013 and raised close to \$1800. Most of this went towards the purchase of new books and additions to the northern DVD collection. (This was as a result of the one of the survey questions).
- The Archives office was closed during Philippa's absence but communication through e-mail continued, funding applications made and requests for information provided or referred to other archives.
- The Society is now focusing on two questions:  
#1: How do you see the role of the board in terms of the library and as they relate to the librarian, Hamlet office...etc..?  
#2: How do you see the role of the board in terms of the archives?

This will be discussed at the upcoming Annual General Meeting on May 29, 2014.
